

# “Assassins inside us – secret agents with a licence to kill!”

30<sup>th</sup> January 2014, Lucy Cavendish College, Cambridge

Prof. Gillian Griffiths FRS, Director of the Cambridge Institute for Medical Research

- Enemies trying to invade from without... and within...
- Secret agents with a licence to kill (cells that have turned existing structures into lethal weapons)
- Intricate mechanisms to keep these snipers in check
- Special effects capturing all the action, in slow motion and magnificent magnification

Plus Gillian’s own story: a legendary mentor in Cesar Milstein, finding the right man, doing the most focused research whilst bringing up small children, and gaining her FRS in 2013 for her ‘elegant and insightful’ science.
